**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-8 13-23, 25, and 27-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Sheehan et al.

Sheehan et al discloses the use of a ear coupler comprising an annular wall, a bottom wall integral with the annular wall; an internal chamber formed by the bottom wall and the side wall(see figure 1), a port(180) in the side wall, and a flexible flange(see figure 26) from the annular wall. Sheehan also discloses the use ribs in the side wall (see figure 2) and walls that are transparent. The flange as taught by Sheehan is coated with an adhesive(60). Sheehan also discloses that transducers used in port is well known in the art (column 13-lines 35-40). Sheehan also allows for a target to aid in placing the coupler over the user's ear (see figures 12 and 14). Sheehan also discloses the use of a grid pattern (see figure 13).

2. Claims 9-12 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

3. Claims 24 and 26 are allowed.

4. Any inquiry of a **general nature or relating to the status of this application or filed papers** should be directed to the **Group receptionist whose telephone number is (703) 308-0956**.
